PBM BLOCKS NO TRICK... ALL TREAT

Luke Wanniger is the hottest thing on Dirt right now in IMCA.

If we backup in time this kid has been using PBM and Erson most of his carrer. In the Hobby Stocks he won track championships and rookie of the year, then the following year in a sport mod he won all the big ones plus track championships, and rookie of the year. Now his first year in a Modified running a PBM Block he agian claimed titles. This year he won track championships and the Rookie of the Year and many other BIG events this year. If the bad luck wouldn't have gotten him he would have won the Super Nationals, Harris Clash, the Tiny Lund Memorial all three races he was leading or in the top 2 with only a handful of laps remaining before someone or something took him out of the race.

2010 USMTS Engine builder of the Year Mullins Racing Engines

won by one point over Sput's Racing Engines in a fierce battle all season long. Sput's had won the title the last 2 years. Mullins Engines won 22 of the 54 race events across the U.S.

ERSON CAMS CONTINUE TO DELIVER

Scott Olsen, Wide Open Racing Engines Erson Cams delivered... Last year we had the pleasure of having Steve Tanzi come to the IMCA Super Nationals and he seen first hand how important it is to keep the chassis loaded on the bar) racing an IMCA A-modified. As the chassis continues to change (4 bar, z-link, 2 link, torque link, swing arm, etc.) the racecar reacts differently. You have to take in all the details from the type of chassis and the type of driver because they are all different. Remember what works for one guy may not and probably will not work as well for the next one. He put what he saw that was needed into a cam design that was magic and has been the cat's meow for Scott Olsen, a multiple track champion racing for many years. This year with Steve's help he saw improvement winning 14 out of 18 races at his home track and multiple wins at others including quailfing at the Super Nationals and the Race of Champions.

Happy Halloween!!!!
